DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-3, drawn to a method of polyubiquitinating a nucleophosmin.

Group II, claim(s) 4, and 7-9, drawn to a method of inhibiting polyubiquitination.

Group III, claim(s) 5 and 7-9, drawn to a method of degrading BRCA1-BARD.

Group IV, claim(s) 6 and 8-9, drawn to a method of inactivating ubiquitin ligase activity.

Group V, claim(s) 10, drawn to a method of transporting BRCA1 from a nucleus to cytoplasm.

The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the special technical feature of Group I is polyubiquitination of nucleophosmin, the special technical feature of Group III is inhibition of polyubiquitination, the special technical feature of Group III is degradation of BRCA1-BARD complexes, the special technical feature of Group IV is inactivation of ubiquitin ligase and the special technical feature of Group V is transport of BRCA. To have a general inventive concept under PCT rule 13.1, the inventions

Application/Control Number: 10/588,124

Art Unit: 1643

b 51.

need to be linked by a special technical feature. Each of these groups has an independent special technical feature which does not overlap with another group. Accordingly the groups are not so linked at to form a single general concept under rule 13.1.

2. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Application/Control Number: 10/588,124

Art Unit: 1643

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anne M. Gussow whose telephone number is (571) 272-6047. The examiner can normally be reached on Monday - Friday 8:30 am - 5 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Larry Helms can be reached on (571) 272-0832. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
